

Zachary Josiah M. Labang

Computer Science Student | Software Developer

PROFESSIONAL SUMMARY

I am a Computer Science student specializing in web development and UI/UX design. I have hands-on experience building responsive, user-focused websites using HTML, CSS, JavaScript, Tailwind CSS, and Laravel. With a strong eye for visual detail and a passion for usability, I enjoy designing clean, accessible interfaces and developing efficient backend systems. I'm currently looking for opportunities where I can contribute my front-end and Laravel development skills while growing further in user experience design.

PROJECTS

Campus Connect

2024-2025

UI/UX Designer

- Lead the design and development of user-centered experiences for a suite of mobile and web applications.
- Conducted user research, including interviews and usability testing, to inform design decisions and enhance user satisfaction.

AI-based Floor Plan Generator

Ongoing

- Developing a Unity-based desktop tool to allow users to generate blueprints, generate editable 2D/3D floor plans, and visualize them in first-person.
- Focused on structural and architectural planning, excluding interior design.
